STARTING A COLLECTION OF BURGUNDY EN PRIMEUR

If you are thinking about purchasing Burgundy En Primeur for the first time, the sheer number of different wines and the segmented nature of vineyard holdings in the region can seem daunting.

Our knowledgeable team is extremely passionate about the wines of Burgundy and will take great pleasure guiding you through the process and explaining the differences in style from communes to producers and classifications – be they village, premier cru or grand cru quality.

VINTAGE REPORT

#Lavignecontinue...

Against the odds, a solitary one-man Armit team has been visiting our beloved Vignerons to bring you the ultimate insight from Burgundy. Our Master Sommelier Nicolas Clerc was in the fortuitous position of holidaying in France, and by a stroke of luck and timing was able to make that crucial diversion to the Route des Grands Crus. We believe that no other merchant has been able to taste as many wines as Nicolas, who brings us the inside view into what is proving to be one of the most singular vintages that Burgundy has experienced in recent decades.

The reds are truly unique, with huge ageing potential. It is rare to be moved by a vintage so early in its life. The singularity and precision of the wines is genuinely striking. The aromas are focused but meticulous, the freshness is tense and briny, the tannins are firm and delicate. Superb quality is there from the regional appellation to the Grands Crus, with the former presenting a genuine steal in terms of drinkability and value for money. Production is meagre, however, and accessibility will be limited.

White wine appellations saw even lower yields, and quality is heterogeneous. The 2019 vintage saw the rise of the cooler sites and villages, so if you like your white Burgundy lithe and precise, you might want to orientate your buying towards the villages of St Romain, Ladoix, St Aubin, Blagny and Savigny-lès-Beaune. Classic villages such as Meursault, Chassagne and Puligny have in general delivered a more serious and solid style, comparable to 2012.

In short, for 2019 you can buy the red wines across appellations and price points with absolute confidence, such is the outstanding quality. For the whites, we encourage you to be a little more discerning. Armit Wines is proud to have established, maintained and cherished relationships in Burgundy over the last 3 decades, and never has the trust between domaine and merchant, merchant and client, been more important than now. Let us be your guide.

The winter was mild and dry. The lack of rainfall meant that the hydric reserves in the soils were not replenished, and the bud burst came early due to the temperature: two weeks earlier than it did in 2018 in the Côte de Beaune and 8 days earlier in Chablis. The frost, which occurred between 5th and 15th April, wreaked havoc in the Chassagne and Puligny area. For Domaine Blain Gagnard, the Chassagne 1er Cru Morgeot suffered an 80% loss in yield, whilst the Grands Crus suffered a 10% loss.

The first flowers appeared in the first week of June at Bouchard Père et Fils. However, the cool, damp weather disrupted flowering, resulting in coulure and millerandage. Frédéric Weber at Bouchard noted that the remarkable phenomenon of 2019 was the heterogeneity in terms of vegetative development. Within the same plot of land, bunches of closed buds could be observed alongside bunches in full bloom, which made the harvest date difficult to anticipate.

June brought with it a summer of intense sunshine and heat, and the vines began to grow very rapidly. Most of the growers did not remove any leaves, so as to maintain maximum canopy cover as protection against the sun. According to Olivier Lamy at Domaine Hubert Lamy in St Aubin, 2019 was characterised by exceptional sun exposure: nearly 15% more sunlight during the day between April and September.

With the heat wave and lack of precipitation in July, the vines stopped their development due to hydric stress. Ripening was very uneven because the flowering was staggered and in particular because of the drought. In Chablis, the old vines with well-established root systems handled the weather better than the young ones, which suffered from the climatic conditions, according to Florent Dauvissat.

Both Etienne de Montille of Domaine de Montille and Frederic Lafarge of Domaine Michel Lafarge noticed in particular the positive effects of organic and Biodynamic viticulture. In 2018, 2019 and 2020, their vineyards responded remarkably well to the lack of water – an investment in their vineyards and years in the making. As Etienne explains, “We started this principle in early 2000s, to get the vineyard healthy and resistant for the future, I am proud to see this has paid off”.

As we have become accustomed in recent years, the date of picking is now a key success factor for any domaine, as winemakers strive to preserve acidity and avoid high alcohol, knowing that the alcohol can quickly rise in a matter of days. Sabine Mollard of Domaine Marc Morey noticed that she needed to be careful about the quicker maturity in 2019, for the potential of alcohol was rising 2 degrees every 3 days versus 1 degree a week in a less solar year.

The lack of precipitation, hydric stress, and high temperatures at the beginning of September

caused growers to start the harvest on the second week of September.

For white wines, the harvest stretched from 6th September for Domaine de Montille and Domaine Benjamin Leroux to 16th September for Christophe Roumier with his Corton Charlemagne. Like last year, the picking window for most producers was very short; to avoid over-ripeness producers needed to be fast and efficient. From mid-September, the temperature started to drop at night and rainfall rewarded some of the growers who held their nerves and harvested slightly later.

For the Pinot Noir, producers gathered their crops from 7th September at Domaine Simon Bize to the 18th September at Domaine Jean Grivot. The fruit was ripe and healthy. The skins were thick, firm, and rich in anthocyanins. There is a near mystical character to the reds: the sugar was concentrated, but also the acidity, resulting in a beautifully harmonious profile. It will be easy to compare the 2019 reds with 2016 in Piedmont for its homogeneity, for it is difficult to go wrong in quality. Ghislaine Barthod mentioned that she was surprised by the quality of the tannins and the acidity level, and Christophe Roumier welcomed back a return to identity for his Chambolles, with lower alcohol and a compelling, nervous energy.

Prices will be the delicate subject of the campaign. With some growers losing up to

60% of their crop, prices will be raised. However, we have noticed pricing stability with Bourgogne, Village and some 1er Cru appellations, but this will depend on the producer. The exchange rate is also less attractive than last year, which does not help.

The top appellations from the high-profile estates will be difficult to secure as usual, but for buyers looking at drinkability and pleasure, they will be thrilled by the likes of Domaine Leflaive in the Côte Chalonnaise, the outstanding Marsannays of Pierre Bart, the delicious Bourgognes from Domaine de Montille, and the Hautes-Côtes de Nuits from Aurelien Verdet.

We are constantly hunting for new, artisanal talent in the region. Having added last year Domaine Trapet-Rochelandet in Gevrey Chambertin, Domaine Rebourgeon-Mure in Pommard, Domaine Comtesse de Cherisey in Blagny and Florent Dauvissat in Chablis, we are pleased to welcome this year Domaine Thomas Collardot in Puligny-Montrachet and Domaine Alain Burguet in Gevrey Chambertin.

In these trying times, we take comfort in the great many wines yet to discover in Burgundy, both for drinking and investing in. This is a region of joy and conviviality, where life is sweet, and life is carrying on.

DOMAINE AGNÈS AND DIDIER DAUVISSAT

The most recent of the Dauvissat domaines in Chablis, Domaine Agnès and Didier Dauvissat released its first vintage in 1989. It now stretches over 10 ha, with parcels in Petit Chablis, Chablis village and the premier cru Beauroy. Florent, their son, is now at the helm of the property, crafting vibrant, zesty and mineral Chablis. Despite being a relatively recent producer, Domaine Agnès and Didier Dauvissat is already making a name for itself with their pure expressions of Chardonnay.

"The 2019 harvest has brought us a very healthy crop of beautiful golden berries but with a small amount of juice. Vinification went well, we preserved the freshness and the acidity and maintained a certain balance but we are down in quantity 30% compared to last year."

Florent Dauvissat, November 2020

DOMAINE WILLIAM FÈVRE

William Fèvre has become the benchmark for classic Chablis. Since William founded his domaine in 1959, some of the most sought-after vineyards have been added to the portfolio which now totals 78 ha including 5 of the 7 Grands Crus. No other producer can claim such an array of the finest vineyards in Chablis. The Premiers Crus see 30% to 40% maturation in barrel while the Grands Crus have 40% to 50%, both in old wood.

DOMAINE JEAN-MARC BOILLOT

Domaine Jean-Marc Boillot makes exceptionally pure, expressive wines with an energetic, mineral backbone. Grandson of Étienne Sauzet, Jean-Marc established his domaine in 1985, starting with some rented vines in Pommard, adding more red vineyards from his father's side and then whites from his grandmother a few years later. In recent years, vines have been purchased in the Mâconnais. Jean-Marc has taken a step back now, leaving the day to day running of the estate to his daughter Lydie though he still joins in at harvest.

"Both white and red are still in vats, the bouquets for the whites is expressive with a stewed facet of dried fruits and citrus peel. The taste is full-bodied but not heavy; it can be tight, requiring a bit of time in the vat to settle down. The reds revealed beautiful colours, lovely dark berry flavours and excellent terroir definition; this year's Côte de Beaune is superb. Rounded tannins, an impression of sweetness reminiscent of the 2015 vintage, and the smooth side of the 2017 vintage... very promising!"

DOMAINE PHILIPPE COLIN

Philippe Colin, in Chassagne-Montrachet, produces outstanding wines over 13 ha. The Domaine was established in 2004, when Philippe split from his brother Bruno and built his own cellar on the outskirts of the village. He has an impressive selection of vineyards, including some Chevalier-Montrachet, and makes wines which can be enjoyed after a few years but his top cuvées require ageing. He adopts a philosophy of minimal intervention in the vineyards. Since 2010, he has been experimenting with large barrels (demi-muids) to provide better wood integration. The village wines are matured in 20% to 25% new oak and the Premiers Crus have around 35% new oak. These delightful wines combine power with elegance and offer much pleasure.

DOMAINE THOMAS COLLARDOT

Bubbly, endearing Jacqueline Collardot couldn't resist the call of tradition when her father retired from the family Domaine. However, first, she had to obtain her diploma at the "viti" in Beaune before taking over the 2.5 hectares in 2011. There are worse places to own vines than Puligny-Montrachet and the estate boasts a mouthwatering range of Village wines and 2 Premiers Crus. The emphasis will remain on showcasing terroir through offerings of single vineyard wines. The first vintage Jacqueline made from A to Z was 2015 and the vines were tended on a sustainable model, although the aim is to convert to organic farming as soon as possible. All the vineyard work is either done by hand or horse depending on the parcel. Fermentation occurs with natural wild yeasts. The wines are pressed gently and slowly, settling the fermentation and élevage in barrel for 10 months. Barrels are then blended in stainless steel tank for three months before bottling occurs. The 1ers Crus are found in in Hameau de Blagny and a prime chunk of racy Folatières. In 2018, her son Mathieu decided to pack in his job as a website developer and join forces.

DOMAINE FAIVELEY

Domaine Faiveley is one of the leading producers in Burgundy with over 120 ha of vines in some of the most sought after vineyards in Burgundy, including 12 ha of Grands Crus. This was our second visit to the refurbished cellars in Nuits-Saint-Georges. The new state-of-the-art winemaking facility will provide much more flexibility, including fermentations in smaller batches, and is another step forward in the evolution of the Domaine.

"2019 is a fantastic vintage for whites in the Côte de Beaune even though yields were down. The wines are generous while retaining an excellent level of acidity. The reds are characterised by intensely concentrated fruits, freshness, and the key, balance. Balance between alcohol, acidity, concentration and soft, supple tannins. The wines have kept with the tradition of producing a remarkable vintage from a year ending in a 9."

Erwan Faiveley, November 2020.

"April frost has damaged the Morgeot heavily. Fortunately we protected most of the vineyards with candles. This is a year of very low yields, the grapes suffered with drought and sunburn. We noticed that their size was quite small with very little juice. This is a year highly concentrated in sugar with a high intensity of aromas. The wines are dense and solid, with higher levels of alcohol but well integrated, tense and harmonious."

DOMAINE LAFARGE

Domaine Lafarge has about 10 ha in some of the best plots in Volnay. Frédéric Lafarge joined in 1978 and 2018 is the first vintage he made with his daughter Clothilde. Like his father Michel, who still occasionally puts in an appearance in the cellar, Frédéric is warm and sincere with a deep connection to the land. They believe passionately that the vineyard is the secret to success. Biodynamic principles are followed and the wines are allowed to express the individual characters of each terroir. In the cellar, the wines are gently handled, oak ageing is kept to a minimum and there is virtually no filtration. It seems hardly anything has changed and yet Frédéric has recently introduced innovations including manual destemming for some cuvées and the reintroduction of a basket press. Tasting in Lafarge's ancient cellar amongst the cobwebs and the mould-covered bottles is a transporting experience.

"2019 is simply the perfect vintage but with 60% down on production, we are left heartbroken. The wines are beautiful with a rare precision and minerality. They are to another level, un-comparable with any past vintages. We had some challenges, the most important one being a logistic challenge, pick up at the right time and control the alcohol level. Despite the production being down, we are proud of what we have created."

Domaine Hubert Lamy in Saint Aubin was established in 1973, the year Olivier was born. Olivier took over from his father in 1996 and has continued to increase the size of the Domaine. Most of the production is white. These wines are known for their incredible purity and precision and they are frequently superior to bottles which sell at twice the price from more fashionable villages.

"2019 presented several challenges: a dry year, hot and solar. We noticed less water compared to 2018 and far more hours of sunshine. The ratio of skin to juice was small, generating a high level of concentration of sugar, extract and acidity. Overall I am pleased with the result, an energetic vintage which we managed well, notably the level of alcohol, well integrated into the balance of the wine."

DOMAINE BENJAMIN LEROUX

A dynamic and extremely talented winemaker, Benjamin Leroux made a name for himself at Domain du Comte Armand where he was the general manager until 2014. Based in Beaune, he launched his own label in 2007, so did two jobs at once for some years. Wines are produced from over 20 vineyards but this remains very much a micro-winery. Apart from 4 ha owned by the Domaine, grape are purchased from trusted growers, most of whom are either organic or biodynamic. In 2017, he took on the running of 2.5 ha in Meursault Blagny.

"The harvest brought an healthy but small harvest (particularly with the reds). The result is beautiful with balanced wines, harmonious particularly on the alcohol level. Under solar harvest, there is less to no risk of botrytis or rot, we noticed the quality of the grapes in the last few years have been optimal. In 2019, the drought and heat have concentrated the tartaric acid (like citrus), hence the resulting tension in the wines."

DOMAINE LEFLAIVE

With the 4th generation at the helm, Brice de La Morandière, Anne-Claude's nephew and great grandson of founder Joseph Leflaive, continues to work with the same family philosophy of respect for the great "terroirs", humility towards the forces of nature and rigour in their relentless pursuit of excellence in winemaking. Brice joined in January 2017 with the managing director, Pierre Vincent. Significant work has been undertaken to make the winemaking more precise, including the selection of a new type of corks enabling an increased longevity in the wines. The estate has also expanded with nearly 3 hectares replanted in Puligny, 7 hectares acquired in the Mâconnais and with the creation of a new vineyard planned for 2020 in the Hautes-Côtes de Beaune.

The wines from Domaines Leflaive are produced outside Puligny-Montrachet from vineyards in the Mâconnais which they own, and from fruit sourced from trusted growers in the Côte Chalonnaise and the Côte de Beaune. The grapes are grown using biodynamic principles and are vinified in the same way as the wines of the Domaine.

DOMAINE DE MONTILLE

One of the great estates in Burgundy, Domaine de Montille produces incredibly elegant and understated wines. Established by Hubert de Montille, who inherited a few Volnay vines in 1951, the estate now comprises 17 ha. The wines had a reputation for requiring a long time to reach maturity but under Étienne de Montille, with the help of Chef de Cave Brian Sieve, the aromatic complexity of the wines has been brought to the fore.

"2019 is an unique vintage for red, in the vein of 2010 and 2009 but reminiscent of 1985. At that time the viticultural and winemaking technique were different. Nowadays we are ready for solar vintages, we are, as well, pragmatic: climate change brings less worry about maturity and fermentation. Our role is more focussed on protecting the plants and the fruit in the vineyard. Organic viticulture has been a great help for that. 2019 is a vintage of concentration and density, texture and freshness. The whites are open and fragrant but the real stars are the reds; there is something magical about them and their tension is unexplainably mystic."

DOMAINE MARC MOREY

Domaine Marc Morey is one of the best addresses in Chassagne-Montrachet. Sabine Mollard, as the fourth generation, continues the work of her predecessors. Her wines are textbook Chassagne-Montrachet combining tension and freshness with richness and effortless power. They are generally matured in around 15% to 20% new oak but this alters depending on the vintage and cru. The wines drink very well early but, with age in the cellar, they take on added depth and complexity. Sabine's recent focus has been on vineyard management to ensure that the fruit strikes the perfect balance of ripeness and acidity.

DOMAINE REBOURGEON-MURE

Established in 1552, Domaine Rebourgéon-Mure is one of the oldest family-owned estates in Burgundy. Historically based in Pommard, the Domaine now stretches over Volnay and Beaune. Rebourgéon-Mure craft wines from 7 ha over 12 different appellations, offering wine lovers an unparalleled chance to explore the subtle nuances of the domaine's lieux dits. Charming wines of intense purity, balance and elegance are released year after year, reflecting the domaine's incredible terroirs and meticulous winemaking practices. The domaine has been certified organic via Terra Vitis since 2019.

"2019 was a rich harvest in terms of colour, alcohol, and concentration, but not in term of quantity. The grapes suffered from the sunlight and heat, coulure and millerandage, and odium. What has surprised me is, despite the drought, the amount of acidity and balance with the focus of the wines make this vintage simply perfect."

MAISON ROCHE DE BELLÈNE

Nicolas Potel took his first steps as a winemaker at Domaine de la Pousse d'Or where he worked with his father in the cellar. Following his father he founded Domaine de Bellène with vineyards in Santenay, Saint-Romain, Volnay, Nuits-Saint-Georges and Vosne-Romanée. Some years later he established a négociant business called Maison Roche de Bellène sourcing grapes from trusted growers in some of the most prestigious vineyards in Burgundy. Nicolas is one of the most dynamic winemakers in the region with an energy and passion matched by few others. He adopts a natural approach to viticulture, in tune with the conditions each year, and buys grapes from organic growers. With his many contacts up and down the Côte d'Or, he used to produce a staggering selection of wines. These days he focuses on a smaller number which has enabled him to monitor each cuvée more closely.

"We are in front of a trilogy of outstanding vintages (18-19-20), all with their different identities and style. 2019 has more finesse than 2018 with more vivacity coming from a healthy crop harvested on the 14th of September. Overall, the wines are balanced and delicate, with a particular great achievement for the red. A rare vintage, very few like that in a lifetime."

DOMAINE MICHEL MALLARD

Michel Mallard and his sons' vineyard is located in the commune of Ladoix-Serrigny, a small village at the junction between the Côte de Beaune and Côte de Nuits. Vine growers from father to son for five generations, the vineyard has expanded over time and now cultivates 11 hectares. The estate has 11 ha around the Corton hill producing 16 appellations in total. It is located in the center of Ladoix-Serrigny on the RN974 – the main road through Burgundy – just south of where Côte de Nuits meet Côte de Beaune. Michel Mallard took over from his father in 2005 and is now running the family estate with his parents' help while also making the wines at Domaine d'Eugenie.

"Very low crop for this vintage: coulure, two heat waves and no rain in winter were the reasons. The profile of the vintage is very high with sappiness and a huge concentration of sugar and acid. I am particularly proud of our Ladoix red and white, both grapes adapted well to the solar vintage and delivered a pristine quality of pure terroir."

ALAIN BURGUET & FILS

Based in Gevrey Chambertin and founded in 1976 by Alain, the estate is now run by brothers Jean Luc and Eric. With 9.5ha of vineyards, the brothers have a strong focus on sustainable viticulture with biodynamic practices. The wines are 100% destemmed with a limited amount of new oak, unfiltered, unfiltered with minimum intervention in term of pidgeage and racking. The brothers strive to continue their father's legacy of wines that are clean and natural with very little sulphur dioxide, expressive of their terroirs, and most of all elegant.

"2019 was a tough vintage with extreme temperature, clear lack of water and burning sunlight. We have noticed in the last few vintages the challenge of the wind, something fairly new in Burgundy. The warm wind of summer concentrated the sugar even more than usual and can burn the grapes. Our policy is to take risks so we are often one of the last domaines to harvest our red wines (from the 15th of September). This year we were lucky, some rain before harvest helped us to preserve the freshness and balanced our alcohol level generating a pure and unique expression of Pinot Noir, one of the most refined we have ever produced."

DOMAINE BART

Pierre Bart is the sixth generation at Domaine Bart. Since 2009 he has been running the domaine and its 22 ha of vines together with his mother and uncle, keeping a strong focus on Marsannay. His grandmother comes from the same family as Domaine Bruno Clair. Some the vines come from his mother's side of the family, others from his grandfather's side. The Bonnes Mares and Chambertin-Clos de Bèze come mainly from his grandmother. The key focus of the domaine is the balance of fruit, acidity and tannins. There are no big extracted wines here, but rather a respect for the precision and elegance of the fruit.

"It was a challenging vintage - from coulure in early spring to water stress during the summer. It turned out to be a very singular vintage, one of its own, with concentration of sugar as well as acidity. This is an exceptional vintage, the key was not to extract too much in order to keep the balance"

GHISLAINE BARTHOD

Ghislaine Barthod's wines are considered to be in the upper échelons of Chambolle-Musigny with very good reason. She has been at the helm of her estate since 1986 and is one of the great matriarchs of Burgundy. Her style is one of refinement and purity and each wine clearly speaks of its terroir. Ghislaine extracts gently in the cellar and uses a maximum of 30% new oak for the Premiers Crus to ensure the purest fruit expression. She is married to Louis Boillot, a winemaker of his own Domaine. They share the same cellar but run their estates separately. Her son Clement has been in charge of the production since 2019.

"The 2019 vintage surprised us by the quality of the tannins and the freshness. We harvested from the 10th of September through a period of 10 days. Sugar ripeness is less important in this solar vintage, as the grapes reached full maturity quite early. We had to wait for phenolic ripeness, the vines suffered from stress through the heat but light rains prior to harvest blessed this vintage with a real pedigree."

DOMAINE LOUIS BOILLOT

Louis Boillot moved from his family property in Volnay to Ghislane Barthod's home in Chambolle when they got married. He learnt his craft with his brother and father at Domaine Lucien Boillot until 2003, when he started out on his own. Louis's approach is that of the *lutte raisonnée* or "reasoned struggle". Following a sorting of the grapes in the vineyard, all bunches are de-stalked, given a quick soak prior to fermentation, before spending 16-18 months in barrel with no more than 30% new oak. Louis's wines are wonderfully elegant, precise and tense. From the 2019 vintage, his son Clement has been in charge of the production.

"This is an extraordinary vintage for our reds in both Côte de Beaune and Côte de Nuits. It reminds me of the character of 2016."

The hard work through the year in the vineyard delivered a beautiful crop, but small (27% down on 2018). This is a singular vintage of balance and serenity."

DOMAINE JEAN GRIVOT

Étienne Grivot took over from his father in 1990 making him the fifth generation of the family to produce wine in Vosne-Romanée. In recent years, Mathilde and Hubert have taken on an increasingly active role. The domaine extends over 15 ha across 22 appellations with holdings in Vosne-Romanée, Nuits-Saint-Georges, Clos de Vougeot, Echézeaux and Richebourg. The vines average 40 to 50 years old. Fertilisers and treatments are kept to a minimum in the vineyards. In the cellar, the grapes are 100% de-stemmed and fermentations start naturally. There is one pump-over per day, following fermentation, and the wines are matured in wood for 15 months.

DOMAINE AF GROS

Domaine AF Gros is owned by Anne-Françoise who inherited vineyards in Savigny, Vosne-Romanée, Chambolle-Musigny, Echézeaux and Richebourg from her parents Jean and Jeanine Gros. Anne-Françoise's husband, François Parent, had a separate label, but from the 2018 vintage, both estates are under AF Gros. DOMAINE TAUPENOT-MERME

Tasting wines with Romain Taupenot is always a great pleasure and something to look forward to each year. Domaine Taupenot-Merme is located in Morey-Saint-Denis and Romain has been in charge since 1998. His wines are pure and elegant and they focus on transparency rather than power. Romain follows organic principles and adopts a gentle approach in the cellar which enable his wines to express each terroir with clarity. Romain is thoughtful and serious, always willing to give an honest appraisal of the vintage and his wines.

DOMAINE AURÉLIEN VERDET

Aurélien is an extremely talented winemaker who established his own domaine in 2008. Aurélien focuses on the vineyards and follows organic principles, in the foot-steps of his father who was one of the pioneers of organic viticulture in Burgundy. His wines are all about freshness and pure crystalline fruit. In the cellar, he presses as gently as possible, employing indigenous yeasts and limiting the amount of sulphur.
