Tasting notes

The 2008 Terre del Volturno is even better than the 2009. It comes alive in the glass with the blackest of cherries, tar, smoke, cured meat and the purest essence of these volcanic soils. The 2008 impresses for its huge structured and dazzling purity. It is vivid and constantly changing in the glass, with myriad aromas and flavors that captivate all of the intellectual and hedonistic senses. 94 Points.
