About the producer

Founded in 1948 by Francisco Pacheco, the grandfather of the three sisters who run the winery today, the total estate comprises 260 hectares of vineyards, olive and almond groves. Monastrell is the predominant variety of the Viña Elena portfolio and flourishes in the nutrient poor, limestone soils in this semi-arid DO of Jumilla. Still trained using the traditional Spanish method "en vaso", the wines produced by Viña Elena are certified organic, demonstrating both a modern outlook with a regard for tradition and a total respect for nature.
