About the producer

Terroir Sense Fronteres was established three years ago by winemaker Dominik Huber, who is widely known for his Priorat property Terroir al Limit, which he founded with Eben Sadie in 2001. Terroir Sense Fronteres began when Dominik acquired a four-hectare plot in 2016 as part of another deal; this land sits in Montsant DO despite being just a few hundred metres down the road from his land in Priorat. On his first visit, Dominik was delighted to discover 75-year old Grenache vines planted in a natural amphitheatre of red clay and gypsum. Free from the tight regulations in Priorat, he set about producing modern, sensual wines with no oak that are thoroughly impressive.
