About the producer

Situated in the heart of the Tokaj region, the origins of Chateau Dereszla can be traced back to the 18th century. The Estate owns 27 hectares spread across the designated “Grand Cru” area, and the large diversity of soils throughout these vineyard holdings is a crucial factor in the complexity of their wines. The historic cellars were fully renovated in 2003 and equipped with state-of-the-art winemaking technology. The winemaking team has a long-established expertise in vinification, as well as sharing a dedication to perfection and passion for the beautiful wines that they produce.
