 Organic  Biodynamic

Tasting notes

"Displaying the classic pale pink hue of Provence, this rosé is beautifully aromatic, with enchanting notes of honeysuckle, grapefruit, and white peach. The palate is vibrant and expressive, revealing layers of floral tones, zesty citrus, and juicy honeydew melon. The finish is delicate, crisp, and refreshing, an effortlessly refined, gastronomic rosé"

Armit Wines

About the producer

Domaine des Mapliers is owned by the Gallo family (no connection to California's ubiquitous wines of the same name). Jean Gallo has been passionate about wine and Champagne for over 40 years, an enthusiasm he naturally transmitted to his son. In 2013 they decided to acquire a vineyard and live out their passion for the land and its wine. Previously managed by the celebrated Domaine Ott, the vineyard is located in the heart of Provence Varoise. Certified Organic, Domaine des Mapliers Rosé is cultivated with total respect of nature. The vines, situated on a south-facing hillside, grow on a calcareous clay soil at an altitude of 300 metres above sea level, which accounts for the wine's unique freshness.
