Tasting notes

"Still unformed nose. Intensely rich palate entry and amazingly persistent. Big enough to serve with a wide range of savoury foods. Great build. Opens out towards the end not unlike a relatively rich white burgundy. But arguably with more energy on the end than many a white burgundy."

About the producer

Weingut Bernhard Ott is one of Austria's most innovative producers of Grüner Veltliner. The Ott estate, founded in 1889 and still family-run, farms 50 hectares of certified biodynamic vineyards. Bernhard Ott's approach is firmly rooted in low-intervention winemaking: whole-cluster maceration, 100% stem inclusion, and spontaneous fermentations in a mix of Stockinger fuders. Ott was also a founding member of respekt-BIODYN in 2007, alongside Johannes Hirsch and Fred Loimer—a group now synonymous with the advancement of biodynamic viticulture in Austria. The winery is based in Feuersbrunn, in the south-western Wagram, with vineyard holdings just north of the village as well as a small but significant parcel in the Stein vineyard across the Kamptal border.
